3/13/78

Dear Mr. Weisberg,

I am presently a student at Hofstra University in Hempstead, N.Y. I used to go to school at The American University in Washington D.C. I was interested AT that time in the "Assasinations". I visited your place of residence with a few others from my school a girl, Kim & a man Alex & myself. I graduated A.U. & am pursuing graduate work here at Hofstra. Though I never really followed thru on my investigation of the assasinations - what I mean is I didn't keep up with it all. Now I find myself so interested that I can't stop. Of course I thought of you & decided to drop a line. If you could, Mr Weisberg give me a list of books to read or suggest how I could further my intense desire to find out who is responsible for these horrible killings. I know you will remember when I came to your home with Kim & Alex and understand that I am sincere in my quest. Please try and write me back - it would be so great to hear from you. I know you can help me in this area. After reading your work - I am proud to have met you & sorry I did not visit you again with Kim. I realize my mistake and wish I was in Washington so I could start over. Thank You Mr. Weisberg for your time.

Sincerely Yours
Steve Fenster

P.S. Harold - your reply will be worth a million$ as I really don't know anyone else "reliable" to contact
